Summary

Full-stack Software Engineer specializing in desktop application development using C# and the .NET Framework (currently working with .NET Framework 4.7). 3 years of hands-on experience in backend development with C#, Java, Python, and relational databases such as MySQL. Foundational knowledge of modern web development technologies. Bachelor's in Informatics and Computer Engineering (in progress – one course remaining). Passionate about building scalable, high-quality software solutions and continuous learning. Explore my work on GitHub or my personal website.

Experience

| | |
|--|------------------------------------|
| Junior Full Stack Developer, <i>DataBlue S.A.</i> | 11/2023 – Present Athens, Attica |
| Actively maintaining and extending a large-scale .NET Framework 4.7 desktop application used in the medical field. Implement new features, improve performance, and update API/Web Service integrations. Utilizing Entity Framework, SQLite, MongoDB, JSON/XML for data handling and MVVM pattern. | |
| Database Developer, <i>Niro Technologies</i> | 10/2022 – 11/2023 Athens, Attica |
| Contributed to SQL database development and maintenance using MySQL, including the creation of automated workflows for importing .xlsx files and improving data processing efficiency. Performed data analysis, optimized existing scripts, and implemented new procedures tailored to client needs. Maintained and enhanced a CRM application built in C# with .NET Framework and developed Python-based automation tasks to streamline operations. | |
| Computer Hardware Technician, <i>VirtualNet</i> | 03/2022 – 10/2022 Athens, Attica |
| Installation and configuration of embedded systems for automated parking solutions. Provided technical support for software and hardware issues, including diagnostics and troubleshooting. Assisted in debugging and maintaining system applications written in C/C++, C#, and Python. | |
| Sales Advisor / Tech Expert, <i>Vodafone Group</i> | 07/2020 – 07/2021 Athens, Attica |
| Assisted customers by identifying their needs and recommending suitable Vodafone products and services. Conducted troubleshooting repairs for smartphones, laptops, and other smart devices. Delivered high-quality technical support and maintained strong customer relationships in a fast-paced retail environment. | |

Education

| | |
|--|------------------------------------|
| University of West Attica, <i>Informatics and Computer Engineering</i> | 08/2018 – Present Athens, Attica |
| Slovak University of Technology, <i>Computer Science</i> Erasmus mobility program participant from September 2021 to February 2022 at the Slovak University of Technology in Bratislava. | 09/2021 – 2022 Bratislava |

| | |
|--|-------------------------------|
| High School of Monemvasia, <i>High school diploma</i> | 06/2018 Monemvasia, Lakonia |
|--|-------------------------------|

Skills

C#, .NET (Framework/Core), WPF, Python, Java, HTML, CSS, Javascript, SQL, Bash, JIRA, GIT, APIs, Problem Solving, Communication skills, Teamwork, Adaptability, Greek (Fluent), English (Fluent)

Languages

Greek – Native/Bilingual

English – Native/Bilingual
C2

Projects

Exam Schedule Composition System

09/2023 – 03/2024

Java-based timetabling application that generates full semester examination schedules from structured Excel (.xlsx) inputs and writes results back to spreadsheets—intentionally avoiding a database for portability and low maintenance. Designed with strict rules and generalized spreadsheet schemas to support adoption across Greek universities while enabling reliable, reproducible schedule composition.

Shooting Range Management

04/2022 – 09/2022

Co-designed and built a C#/.NET desktop prototype to digitize a shooting range's operations—member registration, regulatory paperwork, inventory control, and training/match analytics—introducing structured workflows, audit-ready records, and exportable reports; engagement ended post-prototype due to client constraints
